ESPANOLA PUBLIC SCHOOLS

- **Will the district accept bids for alternate solutions?**

Española Public Schools (EPS) requests that proposed solutions that adhere to the Specifications / Scope of work (SOW) Exhibit A in the RFP#2023-0003 IA/WAN.

- **Does the district need firewall quoted as part of this RFP?**

After careful review EPS response is NO to quoted firewall for the time being. EPS at this point will opt out to simplify overall application for requested service(s).

- **What internet bandwidth is the district requesting as it needs to be right sized according to the traffic the district intends to send to the internet?**

EPS District only needs 10gbps for current capacity with current equipment. although EPS would like to exercise what 100gbps would look like for projection purposes that will be worked into the overall EPS Technology Plan. EPS feels with 10gbps being our targeted provision. EPS would definitely like to be upgradable to 100gbps service(s).
